

Alexander Sultan

Entry-Level Software Developer

I am a 25-year-old motivated software engineering student from the Software University of Bulgaria. I was born in Varna, Bulgaria and I am dedicated to improving my skills through hands-on learning and development work. I have previous experience as an intern in CSoft (Varna) with C++. In the last year and a half I have been mostly focusing on HTML, CSS, JS, jQuery, React and the MERN stack.
